Meeting ID: 858 4295 7219

Password: 501079

Have you noticed fewer nuisance plants in the pond this year or been wondering where those bubbles in the pond are coming from? Interested in learning how stormwater improvements will benefit the pond?

Join the Town of Eastham, the Association to Preserve Cape Cod, and Horsley Witten Group to learn about ongoing actions to improve the water quality of Schoolhouse Minister Pond. Provide input on plans for stormwater treatment at Fisherman's Landing and other potential sites adjacent to Nauset Haven and along the rail trail.

Questions: Contact Jane Crowley, Director of Health and Environment at
